80GAS001**	Dissertation Work in Advanced Studies ⅠA	2	Students will work with the chief supervisor to set their own research topics, investigate the academic background of the topic, and gain an understanding of the relevant basic academic theories. Students will begin initial investigations on actual research projects and acquire the basic methods necessary to carry out their research.
80GAS002**	Dissertation Work in Advanced Studies ⅠB	2	Students will work with the chief supervisor to set their own research topics, investigate the academic background of the topic, and gain an understanding of the relevant basic academic theories. Students will begin initial investigations on While conducting a basic study of the issue, students will organize the research problems to be solved and, through discussions with their supervisors, formulate a medium-term research plan and work on its solution. Students will learn appropriate research methodologies (e.g., how to organize and interpret data, how to expand, select, and focus research topics, etc.) in order to solve problems.
80GAS003**	Dissertation Work in Advanced Studies ⅡA	2	Students will focus on selecting and concentrating on their own research topics according to the progress of their own research projects. Through repeated discussions with their supervisors, students will review their research topics and revise their research plans as necessary to deepen their research in a flexible and rational manner. In addition, students will understand the relationship between the research topic and the surrounding areas.
80GAS004**	Dissertation Work in Advanced Studies ⅡB	2	Students will improve the generality, depth, and accuracy of the results and data obtained in their research projects to a high-quality level that will contribute to objective evaluation. Students will organize their understanding of the research topic and the results of their research up to this point.

80GAS005**	Dissertation Work in Advanced Studies ⅢA	2	【5-year doctoral program】 Establish a more academically advanced doctoral degree research project based on the initial two years of work on the research project. If necessary, the assignment will be re-established or the research direction will be substantially revised. Students will develop their own research plan and promote research on their own initiative in response to the established research topics. 【3-year doctoral program】 Students will set a doctoral research theme in collaboration with their supervisors while making use of their own academic background, and then investigate the academic background in the research area of the theme and understand the related theories that form the basis of the theme. Students will begin initial consideration of the actual research topic, and after confirming the knowledge and skills they need to acquire, such as the research methods and language required to carry out the research, they will formulate a specific course plan and begin implementation of the plan.
80GAS006**	Dissertation Work in Advanced Studies ⅢB	2	【5-year doctoral program】 Concentrate on their research projects and reach a level of achievement that is fully evaluated in light of international standards. Then, they will extend or deepen their own research topics and advance to more advanced research. In cases where progress is not being made according to the research plan, the student will rationally sort out the problem and find a way to resolve it. 【3-year doctoral program】 The research theme will be further extended or deepened to establish a doctoral degree research theme at a level that is fully evaluated in light of international standards in related academic fields. Students will independently create a research plan and carry out necessary preparations for the research project.

80GAS007**	Dissertation Work in Advanced Studies ⅣA	2	【5-year doctoral program】 Concentrate on research projects. In this course, students are expected to publish their research results in international academic papers or at international conferences and symposiums to obtain objective evaluations from the surrounding academic fields. Depending on the progress and development of the research project, students will collaborate with external (domestic and international) related research teams and participate in research as interns on their own initiative. 【3-year doctoral program】 Concentrate on the research subject that he/she has set for himself/herself based on the methodology of the relevant academic field. Then, if necessary, reassign the issue or review the research direction. If progress is not made according to the research plan, students will rationally sort out the problem and set a course for solving the problem.
80GAS008**	Dissertation Work in Advanced Studies ⅣB	2	【5-year doctoral program】 Accumulate results toward obtaining a doctoral degree, objectively self-evaluate their overall significance, explore unexplored research issues, and take on the challenge of leading such research. Or, they will compile the results they have accumulated and present their findings within a larger framework (e.g., a synthesis paper or a synthesis lecture). 【3-year doctoral program】 By presenting the accumulated results in exercises, etc., the program aims to develop multifaceted and original discussions. In addition, students will be able to conceptualize the entirety of their doctoral degree research and understand the academic significance of their research results in the surrounding fields and society.
