

Department of Fusion Science, School of Physical Science
SOKENDAI (The Graduate University for Advanced Studies)
Doctoral Program 2020
Special Admissions for Applicants Residing Abroad
(Privately Financed International Students)

1. General Prospectus

SOKENDAI (The Graduate University for Advanced Studies) was founded on October 1, 1988 as one of the national universities of Japan. The basic idea of SOKENDAI is to develop a new system of postgraduate education in Japan. Its key features are as follows;

- 1) SOKENDAI offers both three-year and five-year doctoral programs.
- 2) SOKENDAI consists of six schools with 20 departments operated by 17 Inter-University Research Institutes and Independent Administrative Institutions (“parent institutions”).
- 3) Research and education are carried out in close cooperation with the parent institutions.
- 4) Broad and international visions are fostered by enhanced interchange among all departments and other universities in Japan and abroad.

The parent institutions provide Japanese and foreign scientists with opportunities to conduct advanced joint research in various branches of science. They are equipped with extensive research facilities and function as centers for advanced studies. At present, they are cooperating in establishing a world-class program of postgraduate education in SOKENDAI.

2. Department Outline

To develop fusion power as a future energy source, it is necessary to research plasma physics through a complementary approach of both experimental and theoretical studies. In this department, students learn experimental methodology as well as engineering requirements for investigating high temperature plasmas, and also learn computer simulation techniques for revealing the nature of complicated fusion plasmas. This department consists of two divisions, the Division of Fusion System and the Division of Fusion Simulation.

For more information, please see the following website:
