

現地レポート／PAN HSI-AN

(School of Physical Sciences, Department of Astronomical Science)

Destination country: USA

Receiving Univ./ Stony Brook University/ Department of Physics and Astronomy

Period of study: 19/04/2013 ~ 27/05/2013

DATE OF REPORT : 21/05/2013

Status of course/research progress (Enrolled in classes? No)

We have finished combination of interferometer and single dish data. This is the main purpose of this stay. Based on the results, we submitted a proposal to CARMA (an interferometer) to obtain the data with higher sensitivity.

Life situation

I am living in a hotel in the campus. Since here is a university town, it is easy to get everything I need in life. I really enjoy the atmosphere in American university. New York City is only 1.5 hour by train from here, so I went there and saw lots of things and museum which I read in textbooks in the past.
