Dear Examinees

The Graduate University for Advanced Studies, SOKENDAI

Regarding the Use of Generative AI in the Entrance Exam Process(Important Notes)

The Graduate University for Advanced Studies, SOKENDAI, advises students to exercise caution when using generative AI tools, such as ChatGPT*. The same applies to applicants — please carefully follow the points below when preparing your application documents.

Additionally, international applicants are advised to review the relevant policies and laws of their countries or regions as needed.

Notes:

When preparing your application documents, review the university's Admission Policy and submit materials that you have carefully considered and created yourself to prevent any suspicion of misconduct or mismatched studies after admission. It is not permitted to use content generated by generative AI as it is.

Please also note that if a certain program specifies or restricts how AI can be used in its entrance exam, you must follow those instructions accordingly.

*Use of Generative AI(For Current Students)
