

Announcement about the Entrance Examination to be held in August 2022

July 12, 2022

The entrance examination of the Department of Space and Astronautical Science is scheduled to be held at Sagamihara Campus with measures taken to prevent infection. We will take measures to ensure safe entrance examination, such as wearing masks and sanitizing hands, keeping a wide space between seats, and reducing contact with others.

However, for applicants who live overseas and are unable to travel to Japan, the entrance examination will be conducted online.

In case of the future spread of COVID-19, the entrance examination will also be conducted online for those living in Japan. If there are any changes in the examination method, examination schedule, or other details of the examination, they will be announced on the website of SOKENDAI (<https://www.soken.ac.jp/news/7399/>) and the website of the Department of Space and Astronautical Science (<https://www.isas.jaxa.jp/sokendai/e/>).

If the entrance examination is held online, applicants will need to secure a venue suitable for taking the examination (limited to a room that can be occupied by one person), an environment with a stable network connection, hardware (electronic device with a camera and microphone) and software to participate in a remote conference system using zoom, etc., and a device to scan your answer sheets on the spot at the end of the examination (a smartphone is acceptable).
