SOKENDAI (The Graduate University for Advanced Studies)
Doctoral Program 2019
Special Admissions for Applicants Residing Abroad
(Privately Financed International Students)

1. General Prospectus

SOKENDAI (The Graduate University for Advanced Studies) was founded on October 1, 1988 as one of the national universities of Japan. The basic idea of SOKENDAI is to develop a new system of postgraduate education in Japan. Its key features are as follows;

- 1) SOKENDAI offers both three-year and five-year doctoral programs.
- 2) SOKENDAI consists of six schools with 20 departments operated by 17 Inter-University Research Institute and Independent Administrative Institution ("parent institution").
- 3) Research and education are carried out in close cooperation with the parent institutions.
- 4) A broad and international vision is fostered by enhanced interchange among all departments and other universities in Japan and abroad.

The parent institutions provide Japanese and foreign scientists with opportunities to conduct advanced joint research in various branches of science. They are equipped with extensive research facilities and function as centers for advanced studies. At present, they are cooperating in establishing a world-class program of postgraduate education in SOKENDAI.

2. Department Outline

Physiology clarifies the mechanisms of living bodies from elements (cells and molecules) and systems; therefore, it provides important basic knowledge necessary for understanding pathological conditions. The importance of physiology has increased with the clarification of genome structures. In this course, students can learn the function of intact organisms at multiple levels from molecular and cellular levels as basic units of living organisms to whole body levels as systems which integrate the basic units. Moreover, students are expected to become pioneering researchers in medicine and bioscience.

3. Doctor's Degree Requirements
